

# FERTILISERS

- Perfect for ALL plants - crops to ornamentals, **pasture to pot plants, natives to exotics**
- Suitable for ALL soils
- **Helps minimise carbon footprint**
- Will not leach from soil
- Helps reduce use of synthetic fertilisers
- Ideal for seed dressing with amazing results
- **Biologically activates soil microbes to release nutrients**
- **Improves soil moisture, encourages worms, dung beetle 'friendly'**
- Immediate nutrient absorption with foliar feeding

## \*Vitec Fish Fertilisers

- Proven soil biology stimulant
- Stimulates release of locked up phosphorus
- More intense flower/foilage colour
- Fungal & pest attack reduced
- Increased shelf life of produce

Select from 2 premium liquid fertilisers -recycling farmed fish or finest deep sea fish - sourced from the clean southern oceans of Australia. Both are 97.5% pure fish concentrate.

## \*Vitec King Kelp

- Stimulates deeper root growth
- Increased drought tolerance
- Provides frost tolerance
- Better bud/fruit set
- Reduces transplant shock
- Essential element for compost tea
- Naturally occurring plant growth hormones.

Highest concentrated liquid kelp (35% kelp) on the Australia market. Prepared from pure rainwater and fresh Australia bull kelp, collected from the shores of King Island.

## \*Vitec Combo

- Prolonged cropping
- Reduce fungicide/pesticide use

A unique combination of Vitec fish & kelp fertilisers with all the above benefits and added bonus of **19% natural organic carbon**.

## Vitec Combo Plus

- Longer shelf life
- Improved soil water retention

A balanced mix of Vitec fish & kelp PLUS extra trace elements, vitamins & complex carbohydrates. Naturally contains

**16.5% organic carbon**
