NATURAL GROWTH HORMONE for Plants & Stock

- 100% Organic
- Offer ad-lib
- Natural Source of Iodine
- Loved by All Stock, all Ages
- 100% Bull Kelp from King Island
- Natures 'Vitamin Pill', Contains Every Known Element to Man

Seaweed Meal Loved by All

I use the Pat Coleby licks and Vitec Seaweed meal and the horses love it. Their coats are so soft, their colours are more intense and they look so much better. The cattle and chooks also love the seaweed meal. I had the **DIY feeder** built following your instructions and all the animals have adapted to eating their lick and seaweed. Now there is no more wasted minerals or seaweed from wind or rain.

Debbie Minkie, Metcalfe VIC.

PLANTS

- Natural Water Crystal
- Natural Soil Conditioner
- Natural Slow Release Fertiliser
- Natural Plant Growth Hormones
- Promotes Root, & Young Growth
- Reduce Transplant Shock
- Gives Heat & Drought Tolerance
- Essential Element—Compost Teas

A Superior Stock Supplement for ALL Animals.

- 100% Natural
